Walk

Walking trolley

(See accompanying photos)

Most users require this trolley for walking. So we have tested the stability scientifically using the specially designed apparatus.

We tested a close competitor against our new ultimate trolley. We tested with both trolleys empty and handles in lowest position, weights were added onto the handles until the trolleys began to tip.

Prestige Engineering
**5 YEAR
FRAME
GUARANTEE**

The Ultimate Shopper

Competitors Trolley

Results

Competitor tipped at 9.5 kg. The Ultimate trolley tipped at 13kg. According to our tests the ultimate trolley is more stable by 30%. We think you will agree this will be a real **aid to your walking**.

The unique brake increases stability, functioning both as a walking brake and a hand brake.

Rest

Seat Trolley

Tested to 25 stone. The lid which is padded doubles as a comfortable seat. Simply put your hand brake on and sit down and rest. An added benefit is the shopper is complete with a quality inner bag to keep your shopping dry and safe. The bag is replaceable. The design of our trolley means the frame can be used without the bag inside. The frame is extremely strong with a 5-year guarantee*.

Shop

Shopping Trolley

The basket is a unique shape. We have designed it so that it is easy to reach your shopping at the bottom. Most trolley bags are too deep, making it difficult to reach the bottom. The volume of our bag is still big enough to take a full shop, this is because it is bigger from front to back than a normal bag.

Walking brake gives confidence and stability

The combination of the brake and angled back wheels makes our trolley one of the most stable available. When you lean on the handle it is much less likely to tip.

Basket Capacity

- 6 Loaves of Bread
- 3 Ltrs Milk plus more...

Folds flat for storage

ONLY 6kg ✓

Lightweight ✓

Handle Brake

Say goodbye to the old-fashioned clunky foot brake system. We are pleased to introduce our newly engineered Handbrake system:

- Easy Access with just a squeeze of the bar on the handle!
- Hand brake can lock the wheels for safety when seated.
- Helps to stabilise your balance – When feeling unsteady, squeeze the handbrake to help prevent yourself from falling over!*
- Reassurance and confidence from the safety of using our trolleys.

* Please follow instructions for proper use.

Testimonials

Most of our sales are through recommendations off the street, which speaks volumes on how our current customers feel about our product.

Here are some testimonials from a handful of happy customers:

“

Just want to thank you for your help in getting the Ultimate Shopper delivered direct to my mother's address whilst we were away. It arrived early the following morning and she is absolutely delighted with its sturdiness and roominess.

My mother is 92 and does her own shopping every day and has already had many compliments on the style and look of the Ultimate Shopper from passers-by in the High Street. She says she feels so much more confident going out now and can lean on it without worrying whether or not it will hold her weight, as well as having a sit down when she feels tired. The fact that both the brakes are easily accessible and directed from one place gives her great confidence in using it.

She was easily able to collapse the shopping trolley on her own and was amazed how neatly it folds away.

Thank you very much. ”

Lynne White

“

We ordered this by credit card from your magazine. Came within 3 days. Unbelievable service. A few weeks ago before buying your trolley I fell over so lost my confidence. I am over 80 so stopped going out. Ilfracombe has lots of hills the brake is so useful.... and your trolley not only has a wonderful seat but arms to assist getting up. The wonderful brake system enables me to apply the brake gently when walking downhill with a trolley full of shopping.

IT HAS GENUINELY GIVEN ME
A NEW LEASE OF LIFE.

I have a sholley but this does not have a brake or a seat. Because of my arthritis I can now stop and sit down whenever I need to and find shopping much easier and enjoyable. Your shopper has genuinely given me the confidence to go out more I am so grateful. I only wish I had known about your shopper a few years ago. However it will give me a new start in life .Something I did not expect at 80. Plus it is easy to get on the bus. I have spread my wings. Thanks. ”
